About Us

CloudShine was founded in 2015 in Bengaluru. As a leading consulting organization, we offer Software Training, Consultation, Application Implementation, and Support, focusing on Oracle products. We have trained more than **5,000 consultants** and assisted in earning Subject Matter Experts - **certification in ORACLE, MICROSOFT, AMAZON** and we have successfully completed **100+ batches of training**.

Our expert consultants have helped hundreds of professionals gain comprehensive knowledge and hands-on experience, ensuring successful career growth.

Mission

Our mission is to deliver exceptional education and training programs that foster lifelong learning, critical thinking, and professional growth. We are committed to:

- Providing accessible and inclusive education to a diverse global community.
- Utilizing cutting-edge technology and teaching methodologies to enhance learning experiences.
- Ensuring the highest standards of quality and excellence in all our programs.
- Supporting our learners with personalized guidance and resources to achieve their career and personal goals.

Vision

To be the leading global provider of innovative and high-quality education services, empowering learners to achieve their fullest potential and make a positive impact in the world by:

- Fostering a culture of continuous improvement and innovation in educational practices.
- Building a global network of partnerships with educational institutions, industry leaders, and communities. Leveraging advanced technology to create engaging and effective learning experiences.
- Providing lifelong learning opportunities to adapt to the evolving global landscape.

CHOOSE CLOUDSHINE FOR THE FOLLOWING BENEFITS

100% refund If not satisfied (As per T&C).

Dedicated job Placement officer

Certified Instructors selected with three levels of Technical Screening

80% practical and 20% theory sessions to gain real time project work experience

Weekly Assignment review to ensure students master curriculum

Weekly Training Quality Review systematized to ensure for best come

Capstone projects to achieve comprehensive mastery of course content

Utilizing an online assessment to map students' knowledge proficiency

Our Cloudshine trainers have 15+ years of real-time project experience and are AWS Authorized and Certified Professionals. Empowering Your Cloud Journey with Expertise and Excellence.

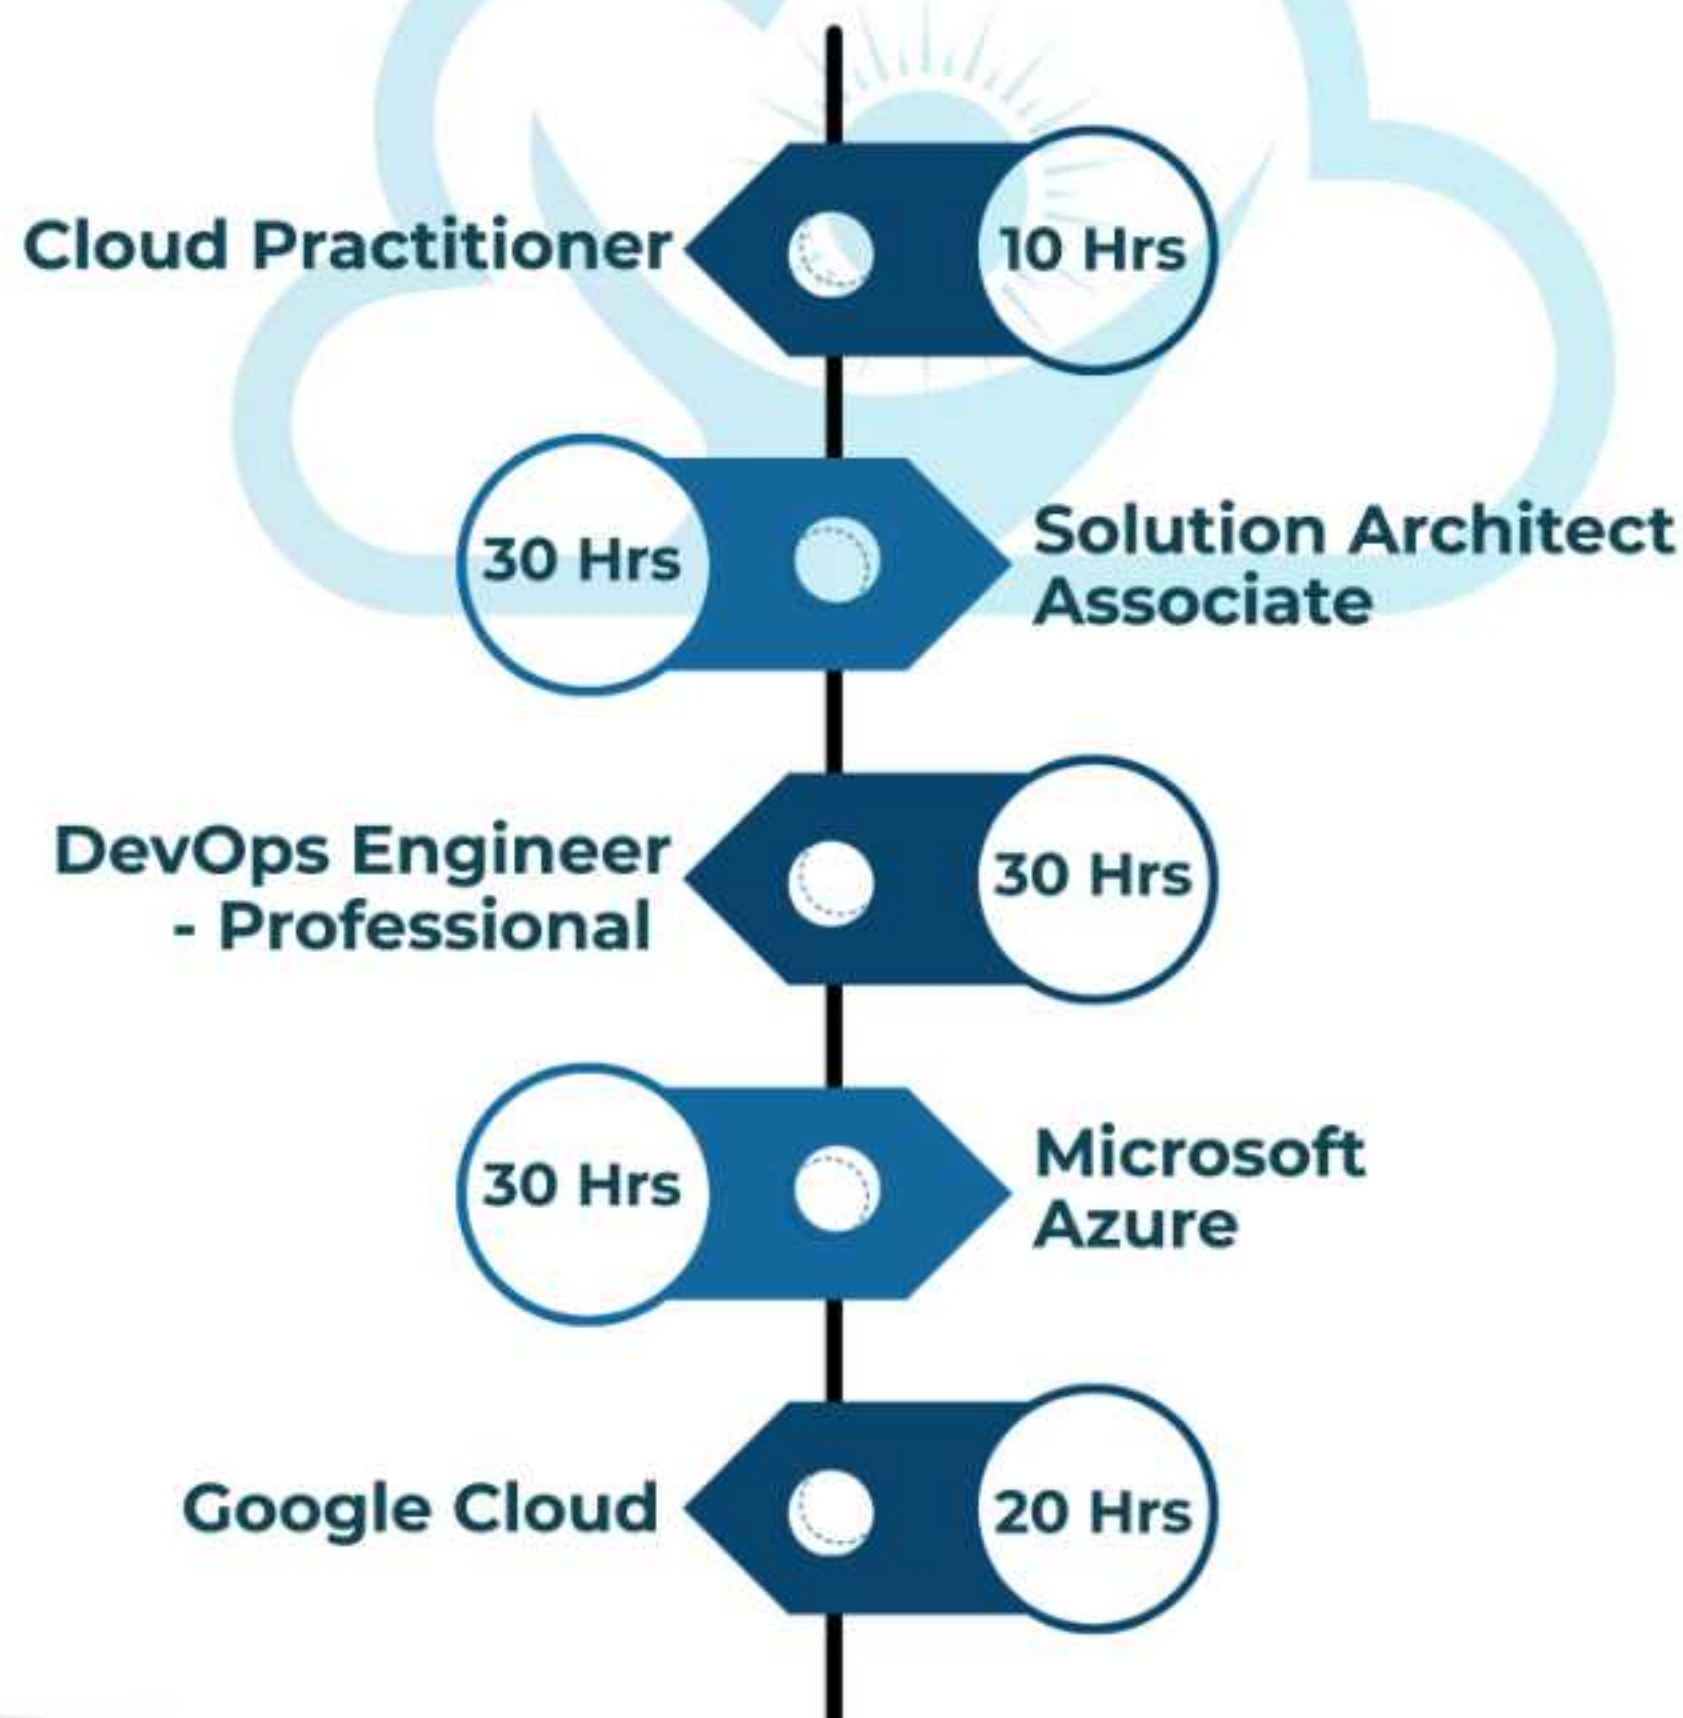

AWS Course Overview

CloudShine Training Program

CloudShine is globally recognized as the industry leader in training Cloud Architects. Our 'Cloud Services Training Team' consists of leading Cloud Computing Professionals with extensive industry-recognized experience in Cloud-Based Solutions. Our AWS instructors have developed a unique teaching style to help aspiring Cloud Engineers master the art of managing large Cloud-Based IT infrastructures.

Our highly experienced Cloud Professionals are known for having top-rated technical skills by employers. We train and develop highly competent Cloud Architects, Developers, and Engineers, many of whom go on to work on large-scale enterprise projects and command the highest salaries in the industry.

AWS Consultant Salaries

Some of the most popular AWS Consultant Program salaries in India based on job profiles are

AWS Consultant Solutions Architect Jobs and Salaries	Junior Solutions Architect Cloud Solutions Architect Big Data Solutions Architect Senior Solutions Architect AI/ML Solutions Architect Principal Solutions Architect	Beginner ₹6L-₹10L/yr Intermediate ₹13L-₹20L/yr Advanced ₹20L-₹30L/yr
AWS DevOps Engineer Jobs and Salaries	Automation expert General DevOps engineer System engineer DevOps architect DevOps release manager DevOps test engineer	DevOps Engineer ₹5L-₹15L/yr Senior DevOps Engineer ₹11L-₹26L/yr Lead DevOps Engineer ₹16L-₹32L/yr
Microsoft Azure Job Titles and Salaries	Azure Administrator Azure Developer Azure Data Engineer Azure Solutions Architect	₹5L - ₹10L/yr ₹6L - ₹15L/yr ₹8L - ₹13L/yr ₹15L - ₹30L/yr
Google Cloud Engineer and Salaries	Google Cloud Engineer	₹10L - ₹26.3L/yr

MULTI CLOUD EXPERT - COURSE CONTENT

◀ CLOUD PRACTITIONER ▶

DOMAIN 1

Cloud Concepts

- Define the benefits of the AWS Cloud.
- Identify design principles of the AWS Cloud.
- Understand the benefits of and strategies for migration to the AWS Cloud.
- Understand concepts of cloud economics.

DOMAIN 2

Security and Compliance

- Understand the AWS shared responsibility model.
- Understand AWS Cloud security, governance, and compliance concepts.
- Identify AWS access management capabilities.
- Identify components and resources for security.

DOMAIN 3

Cloud Technology and Services

- Define methods of deploying and operating in the AWS Cloud.
- Define the AWS global infrastructure.
- Identify AWS compute services.
- Identify AWS database services.
- Identify AWS network services.
- Identify AWS storage services.
- Identify AWS artificial intelligence and machine learning (AI/ML) services and analytics services.
- Identify services from other in-scope AWS service categories.

DOMAIN 4

Billing, Pricing, and Support

- Compare AWS pricing models.
- Understand resources for billing, budget, and cost management.
- Identify AWS technical resources and AWS Support options.

◀ SOLUTION ARCHITECT – ASSOCIATE ▶

DOMAIN 1

Design Secure Architectures

- Design secure access to AWS resources.
- Design secure workloads and applications.
- Determine appropriate data security controls.

DOMAIN 2

Design Resilient Architectures

- Design scalable and loosely coupled architectures.
- Design highly available and/or fault-tolerant architectures.

DOMAIN 3

Design High-Performing Architectures

- Determine high-performing and/or scalable storage solutions.
- Design high-performing and elastic compute solutions.
- Determine high-performing database solutions.
- Determine high-performing and/or scalable network architectures.
- Determine high-performing data ingestion and transformation solutions.

DOMAIN 4

Design Cost-Optimized Architectures

- Design cost-optimized storage solutions.
- Design cost-optimized compute solutions.
- Design cost-optimized database solutions.
- Design cost-optimized network architectures.

◀ AWS DEVOPS ENGINEER - PROFESSIONAL ▶

DOMAIN 1

SDLC
Automation

- Implement CI/CD pipelines.
- Integrate automated testing into CI/CD pipelines.
- Build and manage artifacts.
- Implement deployment strategies for instance, container, and serverless environments.

DOMAIN 2

Configuration
Management
and IaC

- Define cloud infrastructure and reusable components to provision and manage systems throughout their lifecycle.
- Deploy automation to create, onboard, and secure AWS accounts in a multi-account or multi-Region environment.
- Design and build automated solutions for complex tasks and large-scale environments.

DOMAIN 3

Resilient
Cloud
Solutions

- Implement highly available solutions to meet resilience and business requirements.
- Implement solutions that are scalable to meet business requirements.
- Implement automated recovery processes to meet RTO and RPO requirements.

DOMAIN 4

Monitoring
and Logging

- Configure the collection, aggregation, and storage of logs and metrics.
- Audit, monitor, and analyze logs and metrics to detect issues.
- Automate monitoring and event management of complex environments.

DOMAIN 5

Incident and
Event
Response

- Manage event sources to process, notify, and take action in response to events.
- Implement configuration changes in response to events.
- Troubleshoot system and application failures.

DOMAIN 6

Security and
Compliance

- Implement techniques for identity and access management at scale.
- Apply automation for security controls and data protection.
- Implement security monitoring and auditing solutions.

◀ MICROSOFT AZURE DEVOPS ▶

- Introduction to Azure DevOps
- Implementing Continuous Integration
- Building Containers with Azure DevOps
- Designing a Dependency Management Strategy and Managing Artifact Versioning
- Setting up Release Management Workflow
- Implementing Deployment Models and Services
- Implement and Optimize Continuous Feedback Mechanism
- Azure Tools: Infrastructure and Configuration, and Third-Party
- Implementing Compliance and Security

◀ GOOGLE CLOUD ▶

- Introduction to Google Cloud Platform
- Managing GCP
- Google Cloud Platform: Virtual Networks
- Security & Identity Fundamentals
- Compute Services
- Data Storage Services
- Architecting Google Kubernetes Engine
- Application Development
- DevOps
- Automation
- Big Data and AI Services
